Republic of Belarus: preference of choice

Being in the center of Europe, Belarus occupies a strategic position at the crossroads of major trade routes; the republic is a transport corridor between Europe and Asia, the EU and the Eurasian Economic Union.

The country widely presents exhibition activity as an important indicator of economic development in general.

The booklet contains a wide palette of the exhibitions which take place in the country in 2016.

The Republic of Belarus is open to constructive business cooperation with all countries of the world.
