# MINSK BEARING PLANT

Spherical roller bearings design, production & service  
ISO 9001 Certificate QMS-00031

## Commercial offer JSC MINSK BEARING PLANT

---

In this letter, we present to you the Joint Stock Company MINSK BEARING PLANT, a company specializing in the production of spherical roller bearings for mining, metallurgy, electrical engineering, woodworking, oil and gas, machine-building and other industries.

JSC MINSK BEARING PLANT has more than 70 years of experience in bearing production. Products are available in the range from 40 mm to 980 mm in outer diameter. Our products are known in more than 30 countries around the world under the brand name MPZ.

JSC MINSK BEARING PLANT is one of the leading manufacturers of spherical roller bearings in Eastern Europe, Asia and the CIS countries. MINSK BEARING PLANT is part of the BELARUSIAN METALLURGICAL COMPANY holding.

Please note that MPZ has a full production cycle, from procurement of parts to assembly of finished products.

At JSC MINSK BEARING PLANT in 2019, work on putting into operation and commissioning at design capacity a unique high-precision, high-performance forge-and-press, thermal and machining equipment that meets the best world standards was completed.

Currently, the company is working to ensure that the newly commissioned equipment is loaded at full capacity, which will allow it to produce products not only of a high level of quality, but also at a competitive price.

Employees of JSC MINSK BEARING PLANT will help to solve professionally any consumer's problem and offer an integrated technical solution for any application. Combined technical solutions, a balance of forces, the necessary operational characteristics, an acceptable price solution, and delivery time are just some of the advantages offered by MPZ.

MPZ has the necessary production facilities for the production of competitive bearings, a modern metrological base equipped with measuring and testing equipment of domestic and foreign companies. Great attention paid to quality issues is confirmed by ISO 9001 certificate.

Products are manufactured according to the HS code:  
848230 "Spherical roller bearings"

The full range of bearing products that are exported can be found in our price list (Appendix 1), as well as on our website [www.mpz.com.by](http://www.mpz.com.by).

Prices are presented on terms FCA-Minsk, payment terms are 100% advance payment. Bearing production period is 3 months from the date of order confirmation. Customs clearance of products is carried out at the expense of the enterprise.
