For the Permanent Mission of the Republic of Belarus to the
Food and Agriculture Organization of the United Nations

We suggest you to consider the possibility of business cooperation with **Open Joint Stock Company "BELARUSKABEL"** and to give information support in establishment of business cooperation with enterprises, organizations and companies in your country.

More than 50 years **Open Joint Stock Company "BELARUSKABEL"** - one of the leading cable enterprises in Belarus which makes and delivers cable production for branches and consumption spheres - such as oil and gas, radio electronics, instrument making, communication, aviation technics, building, telecommunication and electrical engineer.

Today it is a modern, universal entity that has equipment for manufacture of mounting heat - and-thermo radiation resistant wires, radio-frequency cables, armored and unarmored power and control cables, cables of management and data transmission, radio and communication cables, installation wires, special-purpose cables and wires with copper or aluminum conductors.

The accruing competition obliges the enterprise to put on the market only competitive production of high quality and to be engaged in development of new production.

The constant studying of the market conjuncture allows the enterprise to expand the nomenclature of the discharged production such as fire-resistant cables and wires with the index of FRLS and FRHF, using organosilicon materials.

For the purpose of increasing in realization of volumes and expansion in the market of products, the organization carries out purposeful work with certification of cable products. Our system of management is certified by DEKRA according to ISO 9001: 2008. Today there are 42 certified products of industrial and technical purpose in the National System of Certification of the Republic of Belarus and the GOSTR system.

For 50 years the plant has image of the reliable partner. All measures are directed on remaining at the same height. The plant possesses sufficient potential – industrial capacities, floor spaces and highly qualified personnel.

The Enterprise is always differed by high decency in relations with consumers. The continuation of this tradition finds expression in strict compliance with the terms of the contracts.

Quality and reliability of the discharged production is reached not only thanks to new technologies on the basis of the modern equipment, but mainly, thanks to preservation of traditions and efforts of the plant experts.

We aspire to satisfy inquiries and requirements of our clients, working over perfection of the manufacturing techniques and the quality of the products.

The production of the Enterprise is demanded in the markets of Russia, Ukraine, Kazakhstan, Moldova, Latvia, Lithuania, Egypt, Bulgaria, Azerbaijan.

Open Joint Stock Company "BELARUSKABEL" has a trade mark that was registered in the Western Europe and brought in the list of business partners.

Sincerely yours,

Alternate Director:

Executor: Tatiana Baranova
