

## Humanitarian project application

Organisation name	State Cultural Institution "Centralized Library Network of the Bobruisk district"
Address	213841 Mogilev region, Bobruisk district, village Kamenka, st. Mekhanizatorov, 14
Position of the contact person	Director
Name, surname of the contact person	Konkova Zhanna Anatolyevna
Contact details for liaison	8 (0225) 72 65 05; +375 (33) 687 32 58
The project title	Mobile Library
The Project duration, years	2
The Target group	Residents of settlements in the Bobruisk region
Place of project realisation	Mogilev region, Bobruisk district
Justification of the problem taking into account the baseline situation in the project region	Bobruisk district is one of the largest districts of the Mogilev region. The area of the district is 1,600 square kilometers. The territory of the district includes 217 settlements, 16,500 people live in them. Stationary libraries of the GUK "Centralized Library Network of the Bobruisk district" are located in 14 settlements of the district, and residents of 195 settlements have limited access to use library services. Bookselling, library points as forms of library service are inferior to the capabilities of a mobile library, not allowing to fully provide high-quality library services to all segments of the population, while the bibliobus is designed to create a new social and communicative format for the life of local society and allows to reach the maximum number of residents of the Bobruisk district. Bibliobus allows you to bring information as close to the user as possible, to create favorable conditions for him to receive a library book. This is a good way for libraries to expand the scope
Project Aim	Ensuring accessibility of information resources and cultural activities for residents of remote communities.
Project Summary	Bibliobus allows to bring information as close as possible to the user, to create favorable conditions for him to receive a library book. This is a good way for libraries to expand their sphere of influence, attract new users, improve key performance indicators and demonstrate the social effect of library activities.
Planned number of trenches	
Currency	USD
Total	35000
Donor funds	33000
Co-financing	2000
Further activities at the end of the project	The project is of a social nature, the results of the implementation of its activities have an impact on various areas of development of the Bobruisk district and its population.
The envisaged objectives during the project work	expand the library space by serving remote and sparsely populated areas that do not have permanent libraries, by providing rural residents with unlimited access to information; increase the range of library services and introduce the most effective forms of public service; qualitatively improve the level of information literacy of residents of remote settlements; participation of the library as a socio-cultural institution of the state in solving problems of socially disadvantaged groups of the population; strengthen the social partnership of the library with public and other organizations dealing with the problems of socially disadvantaged sections of the population; increase the positive image of the library among the population: in advertising its services and opportunities.

Description of project activities	The Bibliobus will allow residents of the Bobruisk district to use information, service, and educational services, deliver new books to every home, and thus help overcome the differences in the cultural status of the city and the village.; The mobile complex can act as; an information center; a mobile library; a remote consulting and educational center; a children's center; a venue for holding seminars, master classes, and presentations; a mobile public reception office; a legal information center; a platform for teaching computer literacy; a center for access to information for people with disabilities; - a mobile center for providing public services to the population;
Expected Result	expansion of the library space by servicing settlements in which there are no stationary libraries, by providing residents of the district with unlimited access to information;; expanding the range of library services and introducing effective forms of public service provision;; improving the positive image of the library among the population.
