| Justification of the problem taking into account the baseline situation in the project region | In 2025, a significant date is celebrated – the 80th anniversary of the Great Victory of the Soviet People in the Great Patriotic War, which allows us to revisit the origins and history of civic and patriotic education using examples of true courage and deep love for the Motherland. Modern society is particularly faced with the issue of preserving historical memory and passing it on to future generations. The relevance of the project is determined by several factors. Firstly, it is the gradual departure of a generation of direct participants in military events, which creates the risk of losing a living connection with history. Secondly, there are increasing attempts to revise the outcome of the war and distort historical facts. This issue is of particular importance for the Belarusian people, who suffered enormous losses during the war. The project is aimed at preserving the continuity of generations and the formation of patriotism among the younger generation and youth, fostering a sense of pride, love and respect for the historical heritage. The corner of martial glory |
| Project Aim | creation of a corner of military glory in the Shklov district library of the state cultural institution "Centralized Library Network of the Shklov district", which promotes patriotic and civic education and increases the interest of the younger generation in the history of the Great Patriotic War. |
| Project Summary | The project is aimed at attracting children's and youth audiences to study the history of their country during the Great Patriotic War using examples of famous literary works of heroic and patriotic orientation. Within the framework of the project, it is planned to hold a number of historical and patriotic events aimed at preserving historical memory and the truth about the events of the Great Patriotic War. |
